

Hurry don't miss your seat to hear from a Distinguished Systems Engineer at Cisco!

The Distinguished Systems Engineer (DSE) position at Cisco was established to recognise the importance and contributions of our highest level of technical sales experts. On Thursday 23 April, the Women Rock-IT Cisco TV Series is proud to present the first ever female Cisco Distinguished Systems Engineer, Vanessa Sulikowski.

A one of her kind, Vanessa is a trailblazer and an inspiration to female engineers everywhere. She will be coming Live from a broadcast into the Digital Aquarium at Swinburne University.

You will also have the opportunity to have some quick mentoring session with two Cisco team members who will be joining you for the broadcast.

What is International Girls in ICT Day?

Events held every year on the 4th Thursday of April where teenage girls and university students are invited to spend the day at the office of ICT companies, government agencies and academic institutions so they better understand the opportunities the ICT sector holds for their future.

But boys are welcome as well! Come along and support the cause of having more girls do ICT!
The first 36 people through the door on the day receive a free wrist band!!
